NINTH REPORT

OF THE

GENERAL PRISONS BOARD, IRELAND.

TO HIS EXCELLENCY CHARLES STEWART VANE-
TEMPEST, MARQUIS OF LONDONDERRY,

LORD LIEUTENANT GENERAL AND GENERAL GOVERNOR OF IRELAND,

General Prisons Board, Dublin Castle,
August, 1887.

MAY IT PLEASE YOUR EXCELLENCY,

1. We, the General Prisons Board, have the honour, pursuant to statute, to present this our Ninth Annual Report on the condition of the Prisons and Prisoners in Ireland within our jurisdiction, and in respect to the registration of habitual criminals during the year ending March, 1887.

I.—LOCAL PRISONS.

2. In our last report we were enabled to announce that, during the previous year, the local prisons at Lifford and Naas had been entirely closed—that of Mullingar reduced to the status of a minor prison—and Downpatrick discontinued as a local prison, and converted into an auxiliary convict establishment for the reception of a limited number of prisoners—the annual saving effected by these several changes in the cost of staff, fuel, light, &c., amounting to in all about a sum of £2,522

Reduction in
the number of
Local Prisons

During the past year still larger reductions have been effected in the same direction, with a further diminution of about £2,790 in the annual cost of staff and maintenance of buildings, &c.

The following are the changes just referred to, viz.:—The eight minor prisons of Carlow, Cavan, Ennis, Longford, Monaghan, Nenagh, Roscommon, and Trim, and the nine Bridewells of Ballymena, Clonakilty, Coleraine, Dungannon, Dungarvan, Killarney, Lurgan, Tipperary, and Tuam were entirely discontinued as places of committal for both untried and convicted prisoners. Omagh was reduced to the status of a minor prison, and the female prison at Clonmel was closed, the prisoners of that class previously committed there being now sent to either Limerick or Waterford.

Bridewells of
Loughrea, New
Ross, and
Queenstown.

It was in contemplation, as stated in last report, to convert the Bridewells at Loughrea, New Ross, and Queenstown, respectively, into police lockups under Sec. 23, 40 & 41 V., c. 49, but certain technical difficulties were found to exist in carrying out such an arrangement under the existing law, and the project was not in consequence proceeded with.

Police Lock-
ups.

3. In paragraphs 3-4, of our last report we drew special attention to the great convenience and economy of establishing such lockups in those districts of the country where the local prisons have been now abolished, and the same view—to which we still adhere most fully—has, it will be seen on reference to par. 20 of their report, been also strongly urged by the late Royal Commission on Irish Prisons.

Legislation.

Without some further special legislation on this subject, however, experience has satisfied us that nothing further is practicable, but such legislation we trust to see effected at no distant date.

Proposed
closing of Rich-
mond Prison.

4. In addition to the several changes detailed in par. 2, arrangements were contemplated during the past year for discontinuing also the large Dublin Prison of Richmond from the 30th April, and the substitution for it, as a local prison, of No. 2 Mountjoy Prison, which would afford larger and better accommodation for the prisoners, and is now available for the purpose, having been entirely cleared of its late convict population—for which ample provision now exists at Mountjoy No. 1 Prison.

See Par. 25
of this Report
p. 20.

This arrangement was decided upon as a first and most important step towards giving effect to the recommendation of the Royal Commissioners—par. 134 of their report—but as it appeared to the Executive that the time named was not convenient or desirable for making a change of so much importance, it was on further consideration deemed best to defer the project for the present.

Prison Expen-
diture, past and
present.

5. The closing and concentration of local prisons in Ireland—a measure equally called for by considerations of economy and discipline—having necessarily been a very slow and gradual process, and as it is not anticipated that, with the exception of the case dealt with in the last paragraph, very much more is likely to be accomplished in the same direction until circumstances admit of the complete adoption of the view of the Royal Commission in regard to the Dublin prisons, the present occasion appears an appropriate one for submitting a short comparative statement showing the financial results of the several changes made since the passing of the Prisons Act in 1877, and which are as follows:—

Par. 134 of
Report.

[RETURN.

RETURN OF EXPENDITURE ON ACCOUNT OF CONVICT PRISONS, ORDINARY PRISONS, and BRIDEWELLS in the Years 1877 and 1886-7 respectively.

	Year 1877.			Year 1886-87.		
	£	s.	d.	£	s.	d.
Pay and allowances of officers,	66,467	0	0	53,879	0	0
Victualling for prisoners,	31,952	0	0	24,658	0	0
Fuel, light, and water,	9,679	0	0	13,017	0	0
Buildings, alterations, &c.,	7,332	0	0	10,537	0	0
Other expenses,	15,670	0	0	11,778	0	0
Bridewell expenses,	5,975	0	0	included above.		
	137,068	0	0	114,819	0	0

Decrease in 1886-87 as compared with 1877, 22,249.

NOTE.—The cost of escorting and conveying prisoners is not included in the above Return—the charge for the service in 1877 was £4,683, and in 1886-87, £10,730, but this latter amount includes the sum of £7,186, expenses for which the Prisons Vote is made liable by the Prisons (Ireland) Amendment Act, 1884, and from which the Grand Jurors are now relieved. 47 & 48 Vic., c. 36.

Daily average number of prisoners—year, 1877, 4,152
Do. do., year, 1886-87, 3,309

	Number open on 31st March, 1877.	Number open on 31st March, 1887.
Convict Prisons,	4	4
Ordinary Prisons,	38	26
Bridewells,	95	18

This Return speaks sufficiently for itself, and the Board submit that the reduction of £22,249 shown in the expenditure for 1887 as contrasted with that for 1877, must be regarded as a very substantial and satisfactory result, especially having regard to the circumstance that a very large part of the outlay in the former year was incurred in adapting the buildings retained to meet the increased demand for accommodation in them to which the reductions in the number of prisons necessarily led.

6. In our last Report, par. 5, reference was made to the scheme submitted by the Board, and then under consideration of the Lords Commissioners of Her Majesty's Treasury, with a view to giving practical effect to the several recommendations of the Royal Commission for increasing the pay and allowances of certain classes of Prison Officers.

Recommendations of Royal Commissioners, par. 71-72.

This subject when it came to be dealt with in detail proved to be one of considerable intricacy and difficulty—unavoidably entailing a lengthened correspondence with the Treasury Department.

However we are pleased to be in a position now to report that these difficulties were ultimately in most respects successfully

surmounted, and while we have to regret that certain recommendations, affecting principally the higher grades, did not find acceptance with their lordships, the general result attained has proved, we believe, quite satisfactory, to the great bulk of the subordinate officers especially, and has been attended, as we conceive, with the best possible effects in regard to the interest of the Public Service.

Salaries of
Chaplains and
Medical
Officers.

7. Apart from the governors and subordinate officers—whose case was fully dealt with by the Royal Commissioners—numerous representations have, from time to time, reached the Board from both Chaplains and Medical Officers in our local prisons to the effect that increased duties had been imposed on them by the closing of contiguous prisons, and complaining of the inadequacy of the salaries originally assigned to them under the altered conditions of the present time.

Special Com-
mittee.

Fully recognising the force and justice of many of these representations, the Board did not fail to bring them under the special notice of the Government, who in October last referred them for inquiry to a Committee consisting of Dr. F. R. Cruise, the then President of the College of Physicians, Sir W. Kaye, C.B., and the Chairman of the Prisons Board.

The Board are aware that, at the hands of this Committee the entire question has undergone a careful and exhaustive inquiry, and that the result of their proceedings was some months since embodied in a report to the Government, but as it is understood that the proposals contained in it still form the subject of correspondence between the Irish Government and the Treasury, the Board are not yet in a position to announce the final decision.

Prison punish-
ments.

8. In the Appendix, Table XII., we submit the usual particulars as to all punishments incurred by local prisoners during the past year.

An additional column has been, in accordance with the practice pursued in England, this year added showing also the number of prisoners by whom no punishment was incurred.

The following is a comparative statement of the punishments of both male and female prisoners during each of the last seven years respectively, viz. :—

Punishments
for prison
offences.

YEAR.	Number Punished.		
	Males.	Females.	Total.
1885-86,	3,552	260	4,212
1886-86,	3,37	454	3,82
1884-85,	3,618	283	4,901
1883-84,	3,307	733	3,943
1882-83,	3,594	1,065	7,075
1881-82,	7,301	1,321	8,622
1880-81,	6,328	1,369	8,694

From this Return it will be seen that there has been an increase of about 3 per cent. in the number of punishments last year as compared with the year preceding, and, in the case of male prisoners, a slight increase also as compared with 1885, but with these

exceptions the diminution pointed to under this head in former Reports still continues to be maintained—the reduction between the first and last year of the series being, it will be observed, from 9,604 to 4,502—or considerably less than one-half; while out of the total number of 29,243 prisoners it is exceedingly satisfactory to find that the large number of 24,741, or considerably more than five-sixths of the entire, received no punishment whatever.

9. In Tables X.-XI. will be found the educational particulars usually supplied each year in regard to the prisoners committed to the larger prisons. Educational Statistics.

The number of "wholly illiterate" prisoners shown in the Return for last year was 13,572 out of a total of 36,971, as against this year, 14,179 out of 39,025, and the total number that received school instruction last year in prisons was 2,756 as against 3,351 the previous year.

In immediate connexion with this subject, we last year referred, par. 8, to the defective character of the secular instruction imparted in the local prisons and the several applications we had submitted for an increased allowance for our teaching staff. This application, we are glad to add, has been since acceded to, and the introduction of improved arrangements in this respect is now accordingly engaging our best attention. Secular Instruction in Local Prisons.

An examination, however, of the Statistics of Crime in this country, as measured by the duration of the sentences imposed (which will be found detailed in Table IX., in the Appendix) will at once suggest how little reasonable ground for hope there is that under any system in our power to establish, the healthy influences of education can be brought to bear in an effective manner on more than the merest fraction of our prison population. Table IX.

The sentences passed it will be seen during the last year for periods of six months and upwards amounted to only 1,600 or $\frac{1}{11}$ of the entire number; while those for periods of three months and under were 34,056, or $\frac{11}{12}$, and those for only one month and under, 29,059, or about $\frac{2}{3}$ of the total number of sentences imposed. Duration of Sentences.

10. In the Appendix, pages 109-133, are to be found the usual Reports furnished by the several Governors as to the industrial labour of various descriptions carried on in our local prisons, showing the daily average number of prisoners employed, the nature of their employments, and the profits derived from them. Industrial Labour.

An entire change of system has, under Treasury direction, been recently introduced in the different manufacturing departments of the prisons, the result of which is embodied in these several reports; but until time has admitted of the figures furnished being locally tested and carefully scrutinized by the Superintendent of Stores, it is not possible to feel confident that the instructions issued on the subject have been, generally, either correctly understood or strictly observed.

Subject to this qualification the following is submitted as a short summary of the results, viz. :—

STATEMENT showing the Total Profit realized on the various descriptions of Industrial Labour carried on in the several Prisons during the year 1886-87.

	£	s.	d.
Profits realized on manufactures,	6,531	12	0
Do do, farm and garden,	675	11	0
Total profit on productive services,	7,206	3	0
Extra receipts,	544	19	5
Total amount payable to the Exchequer,	67,354	15	5

Juvenile
offenders,
Table XIV.

11. The figures as to juvenile offenders for the past five years stand thus :—

YEAR.	Number of Commitments.		
	Males.	Females.	Total.
1886-87,	766	77	843
1885-86,	613	174	787
1884-85,	742	93	835
1883-84,	523	134	657
1882-83,	563	127	690

From this comparative statement it is at first sight somewhat startling to find that the return for last year is the highest since 1883-4, and that it exceeded that of the previous year by the large number of 138—viz., 135 males and 3 females—this result will be found, however, on closer examination, to be mainly attributable to the very large increase which took place in the number of committals of this class to Belfast prison, viz., from 95 the preceding year to 233 in the last—one of the many painful results, it is believed, springing from the formidable riots that broke out in that quarter during the past year.

Number of
commitments
to prison.

12. From the subjoined table it will be seen that the number of commitments to local prisons for the last three years shows an increase over the return for the two preceding years, though still considerably below that for 1878-9.

This result, we continue of the opinion expressed in par. 21 of our last report, is attributable altogether to the hardness of the times and the general slackness of trade and employment from which the labouring classes have, during the period referred to, suffered so severely; causes which we trust will only have a temporary operation.

The figures for the last nine years are as follows :—

Year.	No. of Commitments.	Year.	No. of Commitments.
1886-87,	60,744	1881-82,	41,565
1885-86,	39,654	1880-81,	40,127
1884-85,	57,823	1879-80,	44,433
1883-84,	55,721	1878-79,	45,237
1882-83,	55,434		

Abstract
1 2, 3.

The following three abstracts are usually embodied in our annual reports.

The first two deal with the number in custody on certain dates in the local prisons from 1851 to 1887, and the third shows the number of commitments and the daily average number in custody last year.

No. 1.—NUMBER OF PRISONERS (of all Classes) IN COUNTY AND BOROUGH GAOLS on the 1st January in each year at unlock.

Bridewell
commitments.

13. The following Table dealing with the number of prisoners confined in bridewells from 1850 to 1887 will show how great has been the change in recent years in the resort had to prisons of this description, and how large and continuous has been the reduction in the number of commitments to them, being for the year just ended only 2,424 as contrasted with 88,899 for the first year of the series quoted.

New Table
added to
Appendix.

14. In this and our previous annual report we have, in accordance with the recommendation of the Royal Commissioners, added three new tables to our Appendix, viz. :—

I. Table V., containing particulars of prisoners released from custody on medical grounds.

II. Table VII., giving particulars relating to each case of insanity.

III. Table XIII. Cases in which mechanical restraint has been employed—to each of which we take leave to refer for the detailed information they are designed to afford.

15. The health of the prisoners in local prisons has been good throughout the year, and these institutions have been free from zymotic and preventible diseases. The deaths amounted to 9 males and 1 female. These deaths all arose from natural causes. Health of local prisoners.

16. The remarks made in par. 16 of the last annual report again apply to the statistics of insanity amongst local prisoners during the past year. It will be observed from Table VII. that 64 males and 21 females were certified to be insane and that out of this total of 85 only 6 were considered sane on admission to the various local prisons. After a careful analysis of all the cases there are only 4 in which the possibility can be entertained that imprisonment may have borne a contributory part in determining the outbreak of mental disease. The medical adviser of the Board has already drawn attention to the unfavourable influence on the lunatics of their committal to prison instead of direct to the asylum. In 79 out of the 86 of the cases admitted to local prisons during the year ended the 31st March, 1887, no reasonable doubt could be entertained respecting the insanity of the prisoners committed. The medical officers of the local prisons frequently record their surprise that cases of manifest insanity should be sent to prison. In a certificate of insanity respecting a prisoner committed under such circumstances, the certifying physicians add:—“It seems to us extraordinary that magistrates will continue to send to prison persons who are manifestly insane.” Upon another case the certifying physicians observe—“He should have been sent to the asylum and not to the prison.” In another instance the prison medical officer remarks, “This case was admitted suffering from mania.” Of another prisoner the medical officer says, “This prisoner when admitted was quite unconscious of his whereabouts, thought he was in a hotel.” In another case a dangerous lunatic who had cut his throat with a penknife was committed to a prison, thus materially increasing the danger of his condition. A prison medical officer of exceptional experience with regard to insanity writes in a quarterly report:—“A more than usual number of lunatics were sent to the asylum (from the prison). None of these became insane from prison discipline or confinement. Persons are frequently committed (to the prison) in a state of mania.” Insanity amongst local prisoners.
Table VII.

Committal of lunatics to prison.

17. In Table XXII. will be found a full detail of the various works of reconstruction and repair undertaken under the superintendence of our architect during the past year in the different classes of prisons, and distinguishing between the works executed by contract and those carried out through the agency of prison labour. Works of reconstruction and repairs, &c.

18. In our last Report, paragraph 38, we bore testimony to the valuable assistance we had received from many of the bodies of visiting Justices throughout the country, and this acknowledgment it affords us much satisfaction to repeat on the present occasion. Visiting Committees for Local Prisons.

The following is a return of the number of meetings held in each case, and of the number of visits paid by individual members during the year, viz. :—

RETURN AS TO VISITING COMMITTEES, 1886-87.

PRISONS.	Number of Meetings of Visiting Committee of each Prison for Year ended 31st March, 1887, at which a quorum was present.	Number of Visits paid by any individual Member of Visiting Committee as Official Business in Year ended 31st March, 1887.	PRISONS. Prisoners' Aid Societies.

19. In our last Report, paragraph 37, will be found a list of the certified Prisoners' Aid Societies established in Ireland up to that date, and now being only 4, viz., 1 in Belfast and 3 in Dublin.

This number, we regret to add, has since undergone no augmentation, a result much, we think, to be deplored, having regard to the important part performed by them where they exist, in extending much needed succour and encouragement to the most helpless classes in the community.

II.—CONVICT PRISONS.

20. Mountjoy, Downpatrick, and Maryborough Prisons continue to be used for male convicts exclusively; the female prison at Grangegorman being still as heretofore devoted to the joint purposes of a convict and a local prison.

Lusk Intermediate Prison.

21. The question as to the retention or discontinuance, under the altered conditions of the present time, of the Intermediate Prison for Male Convicts, established in the year 1856, on the commons of Lusk, county Dublin, had long engaged the attention of the Executive and the Board.

Report of Royal Commission.

It was also fully considered and inquired into by the late Royal Commission, whose conclusion on the subject will be found

fully conveyed in paragraph 119 of their Report, in which they state that—

“Without condemning the Intermediate system we are of opinion that it is impossible to recommend the continuance of Lusk in its present condition. There is no justification for the large expenditure incurred per head, and no suggestion has been made to us as to how it can be reduced.”

It was after much deliberation ultimately determined to discontinue its use altogether, and on the 31st December last it was accordingly closed as a prison, and the prisoners entitled to the privileges it was designed to confer, and now numbering only 21, were at the same time constituted a special “Intermediate Class,” and transferred as such to a section of the Invalid Convict Prison at Maryborough, where ample and suitable accommodation for their reception was found to be available, and where the Board, with a view to its better adaptation to this purpose, are at present in treaty for the purchase of additional land for their employment.

22. The accommodation afforded for convicts on the 31st March, 1887, by the four Convict Prisons may be estimated at 1,023, viz. :—

Mountjoy Male Prison,	783
Maryborough Invalid Prison,	104
Grangegorman Female Prison,	83
Downpatrick Prison,	53
Total,	1,023

And the number of convicts in custody at that date was :—

Number in custody.

—	Males.	Females.	Total.
In Convict Prisons,	534	61	595
In Local Prisons,	13	—	13
Gross total of Convicts in Custody on 31st March, 1887,	547	61	608

The number of convicts sentenced to penal servitude during the year ending 31st March, 1887, was :—

—	Males.	Females.	Total.
5 years,	47	6	53
7 “	27	2	29
10 “	7	—	7
15 “	1	—	1
20 “	4	—	4
Life,	2	1	3
Gross Total sentenced during year,	88	9	97

Disposal of convicts during the year ending 31st March, 1887:—

—	Males.	Females.	Total.
Discharged from Prisons:—			
On Orders of Licence,	181	31	212
On Commutation of Sentence,	14	—	14
On Completion of Sentence,	18	4	22
	213	35	248

Of the above number discharged during the year 10 males and 4 females had previously been released on licence under the same sentences, but had forfeited their licence and been recommitted to prison, and seven female convicts were transferred from Prison to Refuges.

The number of female convicts discharged on licence to be at large from Refuges during the year was 4.

The number of female convicts in Refuges during the year ending 31st March, 1887, was 11. Of these 4 had undergone previous sentences of penal servitude, and 3 of them had been previously in Refuges.

The Revocations and Forfeitures of Licences in Ireland during the year ended 31st March, 1887, were as follow:—

—	Males.	Females.	Total.
Forfeited or revoked for breach of conditions of Licence,	4	2	6
Forfeited or revoked in consequence of a conviction for other offences,	21	4	25
Gross Total,	25	6	31

782	88	870	1884-85	157	184
754	82	836	1885-86	99	197
700	88	788	1886-87	97	248
566	66	632	1887		

From the foregoing table it will be observed that there has been for many years a gradual diminution in the number of convicts both of male and female committed, and more especially is that decline perceptible since the local and convict prisons have been placed under one central control. On the 1st January, 1877, the male convicts in custody numbered 891, and the female, 264, whereas at the same period this year these numbers respectively were 566 and 66. This very satisfactory state of things we largely attribute to the deterrent influence and improved management of both Local and Convict Prisons since the passing of the Prisons Act of 1877.

* In addition to this number there were 345 convicts under detention in the county prisons, and several hundreds in Bermuda and Gibraltar, who were subsequently discharged in Ireland.

23. In addition to the three new tables added last year to the Appendix—as referred to in par. 14—the following were also introduced in regard to the convict class, viz. :—

I. Table XXVI.—Particulars of convicts released on medical grounds.

II. Table XXVII.—Particulars relating to each death occurring in the Convict Prisons.

III. Table XXIX.—Cases in which mechanical restraint was used.

IV. Table XXXII.—Particulars relating to each case of insanity.

Health of
convicts.

24. The convicts located in Mountjoy, Grangegorman, and Downpatrick Prisons have enjoyed good health during the period under review in this report. Maryborough Male Convict Prison is appropriated partly for the reception of convicts of doubtful mental condition, those suffering from chronic bodily diseases rendering them unfit for the discipline of an ordinary convict prison, and also partly, as a recent arrangement, for convicts belonging to the intermediate class, heretofore sent to Lusk, as explained in par. 21. The water supply of Maryborough Prison has occupied much attention during the past year. This prison stands on a somewhat lower level than that occupied by the County Infirmary, and is separated from it by a public road. The existing arrangements in the County Infirmary for the disposal of excreta are not of a satisfactory character. On one occasion during the past year enteric fever occurred in Maryborough Prison, and the Board's medical adviser entertained no doubt that it arose through pollution of the wells from the gravelly subsoil tainted by a watercourse passing from the infirmary in the vicinity of the prison. This was not the first occasion on which this preventible form of disease visited the prison. The Board without delay entered into arrangements for securing a water supply not exposed to such accidental sources of pollution, and, in the meantime, the prison water supply was carefully treated with a view to the removal of all suspended impurities. After the water had been treated by precipitation, filtration, and other means for its purification, no further cases occurred. One prisoner, however, died from enteric fever.

The deaths in all the convict prisons amounted to seven, and, with the exception of the one just referred to, they had no connection with prison life.

Insanity
amongst con-
victs.

25. During the year ended the 31st March, 1887, 8 convicts were certified as insane, the same number as in the preceding year. The first case in Table XXXII, that of W. M., has long occupied the attention of the prison authorities, and has been referred to at some length by the Royal Commission on Irish Prisons. This convict has in several prisons manifested determined homicidal propensities, and he has been known to display considerable cunning in concealing a weapon capable of inflicting deadly injury. He has been in asylums several times, and has been sent back to prison life. When a prisoner, time after time, makes attacks quite unprovoked and of a dangerous character

doubt will naturally arise as to his mental condition. In this particular case competent authorities have differed as to whether the convict is thoroughly "mad," or is to be sheltered under the irresponsibility which attaches to one who is admitted to be "mad." Having regard to the antecedents of W. M., it would appear to be the safest course, as well as the most humane, to keep him in an asylum, as it is obvious that he is not adapted for the discipline of a prison.

In the next case, that of E. M., the mental condition was doubtful on his admission to Downpatrick Prison. He had previously been some years in Mountjoy without manifesting any marked mental unsoundness. It was hoped that the transfer to Downpatrick might have served him, but soon after his reception there he betrayed the existence of dangerous delusions respecting the chaplain, and he was transferred to an asylum. With regard to this case it is not possible to decide whether imprisonment had or had not acted as an exciting cause of insanity.

The third case, that of A. H., was unquestionably one of defective intellect. The woman was weak-minded through life, and could have been treated in prison where she was quite contented. Acting, however, upon the general principle that prisoners of unsound mind ought not to be retained in an ordinary prison, the Board's medical officer advised that she should be transferred to an asylum.

The remaining 5 cases were transferred from Mountjoy Convict Prison. The first is that of J. C. This prisoner had been a horse-trainer. He had some dispute respecting a debt which he alleged was due to him for training a horse, and he admitted that in the course of a struggle, which ensued, he stabbed his opponent with a penknife. He had never been in prison before, and the sentence of five years' penal servitude passed upon him appears to have made a profound impression upon his mind. He constantly brooded over it, and arrived at the conclusion that he could never hold up his head again. Melancholia supervened, accompanied with acute suicidal impulses. The disgrace of imprisonment appears to have unhinged this man's mind. It could not be ascertained whether there was any hereditary taint.

J. H.'s case was one of dementia of a mild type. He was undergoing a sentence of seven years penal servitude. He was considered weak-minded on conviction, and from the date of his reception at Mountjoy to the period of his transfer to an asylum, he was silent and morose. He gradually manifested delusions referring to his food.

J. B. exhibited symptoms of mental depression soon after his admission to Mountjoy in April, 1886. These passed off, but returned in the following August and gradually increased. He was transferred to an asylum within five months of his reception at Mountjoy. In this case it is possible that prison life may have operated as a predisposing cause.

The case of W. W. presented some difficulty. His mental condition on reception was doubtful. He was known to have been an inmate of an Irish asylum, and he said that he had suffered

from sunstroke, and had been an inmate of an asylum in the United States. It remains open to doubt whether this convict was really insane or merely a resolute malingerer, but after the fullest consideration of his case and repeated consultations, he was transferred to the Criminal Asylum. (At the date of this report he is again in Mountjoy, and his mental condition, whether real or assumed, is not more satisfactory than when he was transferred to the asylum.)

The last of the eight cases is that of J. M. This man suffered from defective intellect, probably congenital. Since his conviction he has exhibited the unstable emotional character frequently associated with imbecility. Prison discipline had no share in producing the mental defects for which he was transferred to an asylum. He was totally unfit for a public works prison.

New Public
Works Prison.

26. Since the discontinuance of the Spike Island Public Works Prison in 1883, the question of providing a suitable substitute for it elsewhere has been the subject of much and frequent consideration, as well as of protracted correspondence with Government.

At the date of our last report a proposal for selecting Galway as the site for this purpose was still being entertained, and in par. 22-3 it became our duty to indicate certain formidable objections which appeared to us, as circumstances then stood to exist to the adoption of this project.

27. In view of these difficulties the Government felt ultimately constrained to abandon definitely this particular project, but no alternative arrangement to it has been as yet decided upon.

Employment at
Mountjoy.

It was ascertained on careful inquiry that useful outdoor employment could be provided in immediate connexion with Mountjoy Prison, sufficient to fully occupy the convicts there eligible for associated labour until, as estimated, about the year 1890, and under these circumstances it was deemed advisable that the question of the selection of the most suitable site should be deferred until the 1st April next, when it is to be again submitted for further and, it is trusted, final consideration.

Views of the
Royal Commission.

28. This question, too, engaged the earnest attention of the Royal Commissioners in 1883-4, and the conclusions arrived at by them with regard to it will be found detailed in their Report, paragraphs 132-4, from which the two following extracts may be here usefully quoted, viz., paragraph 133:—

"Apart from the difficulty of finding proper employment for the convicts at Mountjoy, there are grave objections to the detention of a large number of prisoners, convicted of serious crimes, in the immediate vicinity of a large city, and the interests both of security and discipline would be served by the removal of the majority of the convicts, at all events, to a less populous and more secluded locality."

And again they say, paragraph 134:—

"We strongly recommend the establishment of a Public Works Prison in Ireland, to which the whole of the male convicts may be sent, and that, as soon as this is done, the prison at Mountjoy should be used for the local prisoners confined in Dublin, the one part for male the other for female local prisoners, and also for the female convicts who, according to the return for the year ending 30th June, 1884, are only 88 in number."

These extracts convey so fully the views entertained and advanced by the Board from the outset on this important question, that it is unnecessary we should, on the present occasion, do more than quote them as above.

29. The following are the principal works of building and construction, at which the male convicts have been employed during the past year in the convict prisons:—

MOUNTJOY.

The new hospital has been completed, and is now occupied.

The new bakery has been completed, and is in use.

A new fire main, fitted with hydrants, has been laid around No. 1 Prison.

Tailor's and shoemaker's workshops have been constructed in No. 1 Prison.

A reception ward is being constructed in No. 2 Prison.

MARYBOROUGH.

The reconstruction of C Block has been completed.

Four cottages for warders have been erected in front of prison, and are nearly completed.

DOWNSPATRICK.

There has been no field at this prison, during the past year, for the execution of any further works of this description, and in the absence of such, the employment of the convicts confined there has been necessarily limited to tailoring, shoemaking, wood-cutting, stone-breaking, the cultivation of the garden, and the usual prison duties—employments much too light in the case of prisoners convicted of the gravest crime.

As pointed out, however, in paragraphs 26-27 of our last Report, this defect and the excessive staff expenditure of £1,686, which the maintenance of this small convict establishment annually entails, can only be removed when the new Public Works Prison, referred to in the last paragraph, has been established.

30. Amongst the works of construction, enumerated in paragraph 24 of last Report as being then in progress, was that of a new bakery at Mountjoy. This has been completed and has been in working order since the month of March—providing, at the present time, the entire supply of bread required, not only at Mountjoy, but likewise at Grangegorman and Kilmainham prisons.

In addition to the superior quality of the bread obtained under this arrangement, it may be observed that a comparison of the cost it involves, with the price which would have to be paid under contract for the supply of bread to the four Dublin prisons shows an estimated annual net saving of £581 8s. 8d. in favour of the former.

31. The reduction in the number of female convicts referred to in last Report, paragraph 28, is still maintained, the total

New Bakery at
Mountjoy.

Female
Convicts.

number in confinement at the close of the last year being only 67, distributed thus, viz:—

Grangegorman,	61
Golden Bridge Refuge,	6
Protestant Shelter,	0
Total,	67

Golden Bridge
Refuge.

We referred at that time to the hope then entertained that Mrs. Kirwan, whose past services to the convicts sent to Golden Bridge Refuge are so familiar, would be soon in a position to again receive the same class there, and this expectation has been since, we are pleased to add, partially realized.

At the present time there are 6 convicts under her charge, but there are still at Grangegorman prison a few others, who would, under our rules, be eligible for going there, Mrs. Kirwan not having now sufficient accommodation at her command for receiving more than the present limited number. It only remains to us, under these circumstances, to offer the prisoners thus deprived of this privilege such compensating advantages in their treatment as the circumstances of the prison admit of, and this has accordingly been so arranged.

Select Classes.

32. The establishment, in each convict prison, of a select class of prisoners convicted for the first time, and found otherwise eligible, continues to work most satisfactorily in shielding the less hardened class of prisoners from the evil consequences of association with old and habitual offenders. These classes consisted during the past year of, in Mountjoy 137, of whom 34 were punished; at Maryborough 17, of whom 4 incurred punishment; and at Grangegorman 12, of whom none were punished.

Visitors to
Convict
Prisons.

33. In March last four of the preceding year's visitors were re-appointed by the Lord Lieutenant for the Dublin Convict Prisons, and Dr. Cruise was appointed in the room of Dr. Lyons, deceased.

In the case of Downpatrick the four previous visitors were re-appointed, and Major Percival Maxwell was added to the list, and at Maryborough the previous visitors were re-appointed.

These gentlemen visit the prisons and see the several prisoners confined in them from time to time, hearing all complaints that are brought before them, and making such remarks upon them as the circumstances suggest.

The arrangement under which independent visitors have been in recent years appointed for the several convict prisons appears to the Board to be an excellent one, and it has worked in all respects, in their opinion, most satisfactorily, and without leading in any instance to the slightest friction between the visitors and the responsible officials of the prison.

III.—REGISTRATION OF CRIMINALS.

34. In the Appendix will be found the usual statistical tables relating to the registration of criminals, and brought down to the close of last year.

From the subjoined Table it will be seen that the returns for the past year show an increase over that for any year since 1879 in the number of Habitual Criminals photographed and registered in pursuance of the provisions of the "Prevention of Crimes Amendment Act," 39 & 40 Vic., c. 23, and that the total number so registered and photographed between 1869, the date of the first Habitual Crimes Act, 32 & 33 Vic., c. 99, and the present time now amounts to 9,774, viz. :—

RETURN showing the Number of Habitual Criminals registered in:—

Year.	No.	Year.	No.
1870.	967	From 1st April, 1869, to 31st	
1871.	1,666	March, 1867.	226
1872.	840	Year ended 31/3/67.	224
1873.	1,118	" 31/3/68.	139
1874.	1,082	" 31/3/69.	164
1875.	955	" 31/3/70.	171
1876.	904	" 31/3/71.	203
1877.	609	" 31/3/72.	250
1878.	272		
1879.	305		
1880.	224	Total.	9,774

Since the date of our last Report a new edition of the "Alphabetical Register of Habitual Criminals" brought down to the close of 1880, has been prepared and circulated for general use. Alphabetical Register.

We beg to refer your Excellency to our Third and Fourth Annual Reports respectively, for full and detailed information as to the general scope and practical value of this compilation.

IV.—DEPARTMENTAL ARRANGEMENTS.

35. In our last Report we had to record with regret the retirement from our Board of Sir John Lentaigne, C.B., owing to impaired health—an event we are sorry to add soon after followed by his lamented death. Departmental Arrangements.

In accordance with the recommendation of the Royal Commissioners, paragraph 34, no successor was appointed to Sir John Lentaigne, as Honorary Member of the Board, but during the present year Dr. F. X. MacCabe, who had been appointed, in April, 1885, as Medical Officer of the Board, was appointed by your Excellency "a third member, with special duties"—so that, at the present time, the Board is constituted in strict conformity with the view of the Royal Commissioners, as expressed in paragraph 35 of their Report. New Member.

The only additional departmental changes calling for notice on this occasion are the recent confirmation of the appointment of our Architect as a permanent instead of a merely temporary officer of the Board, and the abolition, on superannuation, of the assistant heretofore allowed in his department. Architect.

V.—APPENDIX.

Appendix.

In the Appendix will be found the several Tabular Returns, Official Reports, and Circulars usually submitted in our yearly Reports.

We have the honour to be

Your Excellency's obedient faithful servants,

CHARLES F. BOURKE,

Chairman

W. P. O'BRIEN,

Vice-Chairman.

F. X. F. MACCABE.

APPENDIX

TO

NINTH REPORT OF GENERAL PRISONS BOARD,
IRELAND, FOR THE YEAR 1886-87.

CIRCULARS AND CIRCULAR MEMORANDA.

General Prisons Board, Dublin Castle,
29th January, 1886.

I am desired by the General Prisons Board to state that the Lords Commissioners of Her Majesty's Treasury have been pleased to sanction, for the present, the following increased rates of lodging allowances (in lieu of quarters, fuel, and light) for married Warders in the Irish Prison Service, whose families cannot be accommodated with prison quarters, viz. :—

I. To Principal Warders, including clerks, six shillings a week, and to other Warders, five shillings a week, when in Dublin, Belfast, Cork, Limerick, Londonderry, or Waterford.

In accordance with Circular Memo of 16th April, 1883, these allowances will be paid monthly, at one-twelfth of the annual amount, viz. :—To Principal Warders £1 6s. 0½d. per month, and to other Warders £1 1s. 8½d. per month.

II. To Principal Warders, including clerks, five shillings a week, and to other Warders nine pounds two shillings (£9 2s.) per annum, at all other towns than the six named in No. I.

In accordance with Circular Memo of 16th April, 1883, these allowances will be paid monthly at one-twelfth of the annual amount, viz. :—To Principal Warders £1 1s. 8½d. per month, and to other Warders 15s. 2d. per month.

These allowances will take effect from the 1st January, 1886, inclusive, in the cases of Warders who were then receiving lodging allowances with the approval of the Board, and in any future application for the allowance from a Warder it will be necessary as hitherto that the Board's sanction be obtained before giving him the allowances, and also in the case of his transfer to the staff of another prison.

When a Warder is transferred from the staff of a prison situated at one of the towns named in No. I. above, to one situated in any other town, he will receive at the latter prison only the reduced rates of allowances stated in No. II.

Their Lordships state that they must hold themselves free to reconsider the lodging allowances now sanctioned, at a future date.

WM. LAMB.

The Governors of Prisons.

CIRCULAR MEMO.

General Prisons Board, Dublin Castle,
14th March, 1887.

TO CHIEF WARDERS OF MINOR PRISONS AND KEEPERS OF BRIDEWELLS.

I am directed by the General Prisons Board to inform you that it is their desire that in the Register in each Minor Prison and Bridewell, the numbering shall commence from the 1st April in each year, and run on consecutively to the 31st March in the ensuing year.

At the termination of each month a black line, and at the close of every three months a red line, is to be drawn across the page of the Register, so as to facilitate the making out of returns.

RICHARD CLEGG, Chief Clerk.

General Prisons Board, Dublin Castle,
15th March, 1887.

SIR,—The General Prisons Board beg to inform you that the following scales of Salary and Allowances have been sanctioned generally for Officers of Prisons, to take effect from the 1st April, 1887, inclusive:—

For all Trade Warders the rate of pay sanctioned at present for First Class Trade Warders, viz. :—£60 a year, rising by £2 a year to £70 a year, with apartments, fuel, light, and uniform, and medical attendance or lodging allowance, as at present sanctioned, instead of apartments, fuel, and light.

For Ordinary Warders—a scale of salary commencing at £50 per annum, and increasing by £1 per annum to £60 per annum, with apartments, fuel, light, uniform, and medical attendance or lodging allowance, as at present sanctioned in lieu of apartments, fuel, and light. Every Warden on the present scale of salary and allowances sanctioned by the Treasury, will be placed on the above scale, with an immediate addition of £5 per annum from 1st April, 1887, inclusive, to his present salary.

If any Officers at present on old scales of the late Boards of Superintendence desire to be placed on the new scale, they should now make application to the Board.

With respect to Matrons and Assistant Matrons, no increase of salary has been sanctioned in their cases, but their allowance for uniform will be increased from £2 10s. per annum to £3 10s. per annum, from 1st April, 1887, inclusive.

In addition to the increases already detailed, which are general to the Prisons Service, the undermentioned increases and allowances have been sanctioned for Prison.

A.—Class Chief Warden has been sanctioned instead of one of the ——— Class, as at present.

The undermentioned annual extra allowances have also been sanctioned (in lieu of the extra allowances at present sanctioned):—

To a Warden acting as	Assistant Clerk	£	s.	d.
" " "	Schoolmaster	.	.	.
" " "	Storekeeper	.	.	.
" " "	Hospital Warden	.	.	.
To an Assistant Matron acting as	Schoolmistress	.	.	.
" " "	Storekeeper	.	.	.
" " "	Hospital Nurse	.	.	.
" " "	Trade Instructress	.	.	.

but as the allocation of these allowances and the question of filling up the place of Chief Warder by promotion or otherwise, must be considered by the General Prisons Board, you must communicate with the Board, and obtain instructions before making any payment under this sanction.

The Governor,
Prison.

By Order,
WILLIAM LAMB.

Circular No. 323.

General Prisons Board, Dublin Castle,
11th May, 1886.

SIR,—It having come to the knowledge of the General Prisons Board that, in some cases the illness of subordinate Officers has been attributable to over-indulgence in intoxicating drink, I am directed to request you will inform the Medical Officer that it is the desire of the Board, in the event of any such cases coming under his observation in future, that he will be so good as to furnish a report at the time on the matter for their information.

I am, &c.,
RICHARD CLEGG, Chief Clerk.

The Governor of each Local and Convict Prison.

N.B.—A second copy of this Circular is sent herewith, which you will please hand to the Medical Officer.

General Prisons Board, Dublin Castle,
25th May, 1886.

Memo.

The Governors, &c., in charge of Prisons, are requested to take such steps as may be requisite to prevent unnecessary delay in returning to this Department files of correspondence, as in many cases great inconvenience arises from such a practice.

The return of all such files is requested.

By Order,
R. CLEGG, Chief Clerk.

Circular No. 324.

General Prisons Board, Dublin Castle,
25th June, 1886.

SIR,—I am directed by the General Prisons Board to send for your information and guidance the annexed List of Holidays observed in this Office, with a view to your regulating your official correspondence with the Board in accordance therewith.

I am, &c.,
RICHARD CLEGG, Chief Clerk.

The Governors, H. M. Prisons.

which observed. | |

R. CLEGG, Chief Clerk.

TELEGRAMS ON PUBLIC SERVICE SENT BY PRISON OFFICERS.

Circular No. 325.

General Prisons Board, Dublin Castle,
30th June, 1886.

With reference to Circular 182 on this subject, I am directed by the General Prisons Board to acquaint you that they have been informed by the Postmaster-General that it has been found necessary to modify the regulations hitherto existing in the Post Office Department respecting the transmission, without pre-payment, of ordinary Official Telegrams sent by Officers of the Crown as on the Public Service.

A copy of the instructions issued to the Officers of the Postal Department, and also a Specimen Telegram Form filled up in accordance therewith, are appended, for your future guidance and that of the Officers of the Prison under your charge.

These instructions do not affect the directions conveyed in Circular 192, and in the last paragraph of Circular 182, which remain in full force.

Please inform the Keepers of Bridewells (if any) under your charge.

RICHARD CLEGG, Chief Clerk.

The Governor of each Local and Convict Prison,
and the Officer in charge of each Minor Prison.

COPY INSTRUCTIONS.

Telegrams sent by officers of the Crown which are stated by the senders to be on the service of a Government department and to relate strictly to official business are transmitted free of charge; and must, therefore, be accepted without pre-payment and delivered free.

The sender should write the name of the department on whose service the message is sent, together with his own name, in the space on the form provided for postage stamps.

No charge for re-directions should be made on such messages.

It must invariably be indicated in the Service Instructions that the message is a Government Service Message, thus:—"On Admiralty Service," "On Customs Service," &c.

MEMO.

General Prisons Board, Dublin Castle,
16th July, 1886.

When submitting cases of prisoners for removal in accordance with Circular 22, the religious persuasion should be stated. It is therefore requested that the amended form (pattern attached) will be used.

RICHARD CLEGG, Chief Clerk.

To the Governors of H. M. Prisons.

Circular No. 326.

General Prisons Board, Dublin Castle,
23rd July, 1886.

SIR,—I am directed by the General Prisons Board to request that on each occasion when coals are being delivered at the prison you will direct that a Board of Survey be formed to examine as to their quality, and to reject such as are of an inferior quality or in an unsuitable condition.

The Board is to be composed of the Deputy Governor or Chief Warder, the Storekeeper, and an ordinary Warder. If necessary, the Governor to be appealed to for his opinion.

A report is to be forwarded to the Board in cases where rejection of the coals offered is found necessary.

I am, &c.,

RICHARD CLEGG, Chief Clerk.

To the Governors H. M. Prisons.

Circular No. 328.

General Prisons Board, Dublin Castle,
23rd July, 1886.

SIR,—On the 20th June, 1885, the General Prisons Board requested the several Medical Officers of Local Prisons to favor the Board with an expression of their opinions respecting the alterations in the Diet Scales of Classes I. & II. made on the recommendation of the Royal Commission of Inquiry concerning Irish Prisons.

The principal changes made were—1st, the reduction of the period during which the Diet Class I. remained in operation from 7 days to 3 days; 2nd, the addition of 2 pints of milk daily to the Diet Class II.

In the replies received from the various Prisons some Medical Officers stated that the amended Dietaries having come into operation only on the 1st June, the period which had elapsed was too short to enable them to express an opinion founded upon the observed effects of the altered Dietary.

The amended Diets have now been in operation for more than twelve months, and the General Prisons Board request that you will hand the accompanying copy of this Circular to the Medical Officer of the Prison under your charge, with an expression of the Board's desire that the Medical Officer will be good enough to submit a further report on the subject of the amended Diet Scales.

The points respecting which the Board particularly desire to receive a report from the Medical Officer are—1st. The effects observed as to the shortening of the period during which the Diet Class I. has remained in operation during the past 12 months. Is it the opinion of the Medical Officer that the limitation of the period to three days has had a good effect? Does the change appear to the Medical Officer to have diminished the deterrent effect of short sentences?

2nd. As to the addition of 2 pints of milk daily to the diet of prisoners on Class II. scale of Diet. Is the Medical Officer of opinion that this addition is necessary in order to maintain the health of short-term prisoners, having regard to the fact that Class II. Diet, as it stood before the addition of 2 pints of milk in Ireland, had remained for some years in operation in English Prisons, and that it has been found sufficient to maintain the health of English prisoners? If the Medical Officer considers the addition of 2 pints of milk unnecessary he will be good enough to state whether he considers the original Diet for Class II. sufficient, or whether he would recommend any addition, and if so, what addition, to that Diet as originally framed.

The General Prisons Board will be glad to receive any suggestions the Medical Officer may wish to offer on the subject of Dietetic punishment in Local Prisons, and, if it has occurred to a Medical Officer to frame a Diet which, with due regard to the preservation of the health of prisoners, he thinks might be adopted as a Punishment Diet, the Board will carefully consider any suggestion he may make on the subject.

I am, &c.,

RICHARD CLEGG, Chief Clerk.

The Governor, ——— Prison.

MEMORANDUM.

GENERAL PRISONS BOARD FOR IRELAND.

DUBLIN CASTLE,
27th July, 1886.

The Governors of Local Prisons.

Addenda to Rule 39.

General Rules for the govern-
ment of Local Prisons.

No. required:

- I. Leaflets.
- II. Slips.

Please state on opposite margin—

1st. How many copies of No. I you will require for pasting one into each of the Books of Rules in use in your Prison, including those of the Visiting Committee.

2nd. How many of the slips you will require to enable you to fix one on every "General Rules" suspended in the Prison.

Your demands should include number required for minor Prisons, if any, under your charge.

N.B.—A copy of the Leaflet for the information of the Visiting Committee of Justices is sent herewith.

By Order,

RICHARD CLEGG,
Chief Clerk.

RULE AS TO PUNISHMENT AND CLASSIFICATION OF PRISONERS,

By the General Prisons Board for Ireland.

In pursuance of the General Prisons (Ireland) Act, 1887, the General Prisons Board for Ireland hereby make the following Amended Rule for the government of Prisons:—

Addenda to Rule 59 of General Rules for Prisoners in Local Prisons, Ireland:—

Any Criminal Prisoner punished by the Visiting Committee, or by a Justice having jurisdiction in the place to which the Prison belongs, shall, in addition to any other punishment, be liable to reduction in classification or loss of marks, if the Prisons Board see fit so to order. It shall be competent to the Prisons Board to restore to the said prisoner, as a reward for subsequent good conduct, the classification or marks of which he may be so deprived.

The foregoing rule shall apply to the prisoners confined in every ordinary prison, and shall come into operation upon the expiration of forty days after the same, having been settled and approved by the Lord Lieutenant or Lords Justices and Privy Council, shall have been laid before Parliament.

Made and executed this 26th day of March, 1886, by the "General Prisons Board for Ireland."

[Seal.]

CHARLES F. BOTKEE, Chairman.

By the Lord Lieutenant and Privy Council in Ireland.

ABERDEEN.

In pursuance of the General Prisons (Ireland) Act, 1877, We, John Campbell, Earl of Aberdeen, Lord Lieutenant-General and General Governor of Ireland, with the approval, advice, and consent of the Privy Council of Ireland, have settled, and hereby approve of the foregoing Rule with respect to the punishment and classification of Prisoners made by the General Prisons Board for Ireland.

Given at the Council Chamber, Dublin Castle, the 11th day of May, 1886.

Edw. Saxe-Weimar, *General.*

John Nash, *C.*

Circular No. 329.

General Prisons Board, Dublin Castle,

3rd August, 1886.

Memo.

I am directed by the General Prisons Board to inform you that in future all male prisoners' clothing shall be made with loops inside the waistcoat to which the trousers buttons can be fastened.

This arrangement should be at once carried out with the waistcoats and trousers in store and in use. (Paper 8321, 84.)

Geo. SPROULE, Superintendent of Stores.

The Governor, H. M. Prison.

General Prisons Board, Dublin Castle,

3rd August, 1886.

Circular 330—7893, 86.

I am directed to request that the practice of forwarding old Brush stocks and heads to Richmond Prison for the purpose of refilling shall in future be discontinued.

GEORGE SPROULE, Superintendent of Stores.

The Governor, H. M. Prison.

General Prisons Board, Dublin Castle,

16th August, 1886.

Circular 331.

I am directed by the General Prisons Board to request that you will properly air, twice a week, before a fire during the winter months, the Prison Beds and Bedding, so that the same may be at any moment in a fit state for immediate use.

The keeper should enter in his Journal each occasion when the above regulation has been complied with.

GEORGE SPROULE, Superintendent of Stores.

The Keeper of——Bridewell.

General Prisons Board, Dublin Castle,

13th September, 1886.

10,761.

To the Governors and Superintendents of Convict Prisons.

As it appears that upon a Convict's becoming eligible to receive a letter, it has been the practice to give him all letters that may have

been received for him since previous issue, and as such a practice is contrary to the Prison Rules, which allow of only one letter being given each time the Convict becomes due for this privilege, the General Prisons Board request that in future the Rules be carried out in this respect.

By Order,

RICHARD CLEGG, Chief Clerk.

General Prisons Board, Dublin Castle,
23rd September, 1886.

CIRCULAR MEMO.

The General Prisons Board direct that local prisoners on reception from another Prison may be permitted to send one of the accompanying printed forms to their friends, and to receive a reply thereto.

The forms which accompany this Memo. are those used in Convict Prisons, and are before use to be altered as per pattern. Forms suitable for Local Prisons are being printed, and will be issued as soon as possible.

By Order,

RICHARD CLEGG, Chief Clerk.

The Governors, H. M. Local Prisons.

General Prisons Board, Dublin Castle,
18th November, 1886.

Circular No. 332.

SIR—I am directed to forward to you the accompanying Copies of a letter addressed by Dr. MacCabe, Medical Adviser to the General Prisons Board, to the several Medical Officers of Local Prisons, one Copy to be handed by you to the Medical Officer of the Prison under your charge and the other retained for your own guidance, and to request that Dr. MacCabe's suggestions may be complied with in the future.

I am, &c.,

RICHARD CLEGG, Chief Clerk.

To Governors of Local Prisons.

Enclosure to Circular No. 332.

To Each Prison Medical Officer.

DEAR SIR,—The General Prisons Board have requested me to address the Medical Officers of Prisons on the subject of the selection of cases for transfer from one Prison to another. Such transfers, as you are aware, are occasionally rendered necessary owing to local circumstances giving rise to temporary overcrowding.

Complaint has been made to the Board that notwithstanding the instructions set forth in Circulars Nos. 45 and 275, Prisoners have been selected for transfer who, in consequence of mental peculiarities or bodily infirmities, are not likely to derive benefit from being sent to another Prison, where the local authorities, including the Governor and the Medical Officer, possess no knowledge of the antecedents of such Prisoners.

The Board desire that, while requesting your attention to the Circulars dated the 30th September, 1878, and the 24th March, 1894 (Nos. 45 and 275), I should point out to you the inexpediency of transferring Prisoners who present any mental peculiarity which your personal knowledge enables you judiciously to deal with, or whose bodily health would be served by the experience you have acquired in their treatment, especially cases of chronic disease which might not at once attract the attention of a Medical Officer to whom such Prisoners

would be perfect strangers. It is hardly necessary to add that women in an advanced stage of pregnancy ought not to be exposed to the fatigue inseparable from transfer to another Prison. In cases where Prisoners present mental peculiarities, not amounting to insanity, your experience in Prison practice will readily suggest to you that a considerable time may elapse before a Medical Officer who has had no previous knowledge of these Prisoners can become sufficiently acquainted with their idiosyncracies to treat them to the best advantage from a professional as well as from a disciplinary point of view. In the classes of cases referred to it appears to the Board that removal to another Prison must be attended with serious disadvantage to the Prisoners concerned.

I entertain no doubt that it is only necessary to draw your attention to the points to which I have referred in order to secure your cordial assistance in carrying out the instructions of the General Prisons Board.

I remain, dear sir,

Yours very faithfully,

F. X. MACCABE.

Fellow, College of Physicians, &c.,
Medical Officer, General Prisons Board.

13th November, 1886.

General Prisons Board, Dublin Castle,
2nd December, 1886.

MEMO.

I am directed to inform you that the General Prisons Board have approved of suggestions made by Dr. MacCabe, that the notices sent herewith be posted in the Continuous Treatment Book and the Medical Officer's Journal, and that the days of the week in the Continuous Treatment Book be altered. I accordingly send you a slip printed for this purpose, and request that you will state the number you will require for pasting on each page of the book at present in use.

Please call the Medical Officer's attention to these notices on the first opportunity.

R. CLARKE, Chief Clerk.

To the Governors of H. M. Prisons.

Circular No. 333.—15,880/6.

General Prisons Board, Dublin Castle,
22nd December, 1886.

To the Governors of Male Convict Prisons.

Convicts in the Intermediate Class, *i.e.*, the class of convicts now located at Lusk Intermediate Prison, will be allowed to continue to earn the same rate of gratuity as heretofore after the closing of Lusk Prison on the 31st inst.; but no portion of such gratuity will thenceforward be paid to the convicts while in custody, nor will they be allowed the use of tobacco.

Their dress in future will be the same as that of the "Special Class" with Badge I. in red, on arm; and Glengarry caps will be worn.

By Order,

RICHARD CLARKE, Chief Clerk.

C

CIRCULAR MEMO. 15,879/86.

General Prisons Board, Dublin Castle,
22nd December, 1886.

To the Governors of Male Convict Prisons.

Inasmuch as convicts who have been in a Reformatory have had special opportunities of reformation, but failed to profit by them, as appears by the fact of their having returned to crime, the General Prisons Board direct, that in future when submitting the cases of such convicts for consideration as to whether they will be allowed to join the Intermediate Class, you will call attention to the fact of their having passed through a Reformatory, and at the same time report as to their conduct in prison.

The restriction thus proposed to be placed on this class of prisoners becomes necessary, inasmuch as under Rules 13, 15, and 21, all prisoners can now by good conduct and industry earn an extra gratuity.

By Order,

RICHARD CLEGG, Chief Clerk.

Circular No. 334.—15,785.

General Prisons Board, Dublin Castle,
23rd December, 1886.

Prisoners under sentences of "24 or 48 hours."

Sir,—I am directed by the General Prisons Board to inform you that their Excellencies the Lords Justices have been pleased to sanction the discharge of prisoners sentenced as above, one hour or one hour and a half before the expiration of such sentence, when such a course is necessary to enable the prisoner to catch the latest evening train to the place of destination.

I am, sir, your obedient servant,

RICHARD CLEGG, Chief Clerk.

To the Governor ——— Local Prison.

General Prisons Board, Dublin Castle,
28th December, 1886.

MEMO.

I am directed by the General Prisons Board to forward to you a Medical Officer's Inspection Book and Extra Diet Book, which have been lately revised on the recommendation of Dr. MacCabe and approved by the Board. A slip to be pasted on the front page of Extra Diet Book is sent herewith.

RICHARD CLEGG, Chief Clerk.

To the Governors H. M. Local Prisons.

General Prisons Board, Dublin Castle,
12th January, 1887.

CIRCULAR MEMORANDUM.

To the Governors of Male Convict Prisons.

The printed "Notice" showing the number of marks to be earned by Convicts under each sentence, &c., having had to be revised owing to the closing of the Intermediate Prison, I am directed by the General Prisons Board to forward you a supply of the revised "Notice," and to request that it may be substituted for that now in use.

R. CLEGG, Chief Clerk.

NOTICE.

16,166.—86.

The following scale shows the number of Marks to be earned by Convicts under the new system of Classification to qualify them for release on licence, and for admission to the privileges of the Intermediate Class in cases where Convicts are in other respects eligible for such privileges; also, the shortest periods in which such Marks can, by unexceptionable conduct and industry, be earned, and the longest periods of remission on licence. The period to be passed in the Intermediate Class under the shortest sentence of Penal Servitude that can be awarded, namely, 5 years, is 5½ months. One month additional in this Class is allowed for each additional year of the longer sentences.

Sentences, Years.	No. of Marks to be earned before		Shortest Periods of Imprisonment		Longest Periods of Remission on Licence.
	Release on Licence.	Transfer to Intermediate Class.	Before admission to Intermediate Class.	In Intermediate Class.	
5	8,700	5,000	Yrs. Mths. 3 5½	Yrs. Mths. 0 6½	Yrs. Mths. 1 0½
6	11,000	6,800	4 1½	0 6½	1 0½
7	13,000	11,000	4 3½	0 7½	1 0½
8	15,000	13,000	5 0½	0 8½	1 0½
10	20,000	17,000	6 3½	0 10½	2 3½
12	24,000	21,000	8 1½	1 0½	3 3½
14	28,000	25,000	9 4½	1 2½	4 3½
16	31,000	27,000	10 1½	1 3½	5 3½
20	42,000	37,000	13 5½	1 8½	8 3½
25	54,000	48,000	16 9½	2 1½	11 3½

The periods remitted on Licence will be proportionate to the length of sentences, and will depend upon the fitness of each Convict for release after a careful consideration has been given to his case by the Government.

2. The above earliest possible periods of removal to Intermediate Class apply only to Prisoners of the most unexceptionable character: no remission of the full sentence will take place unless the Prisoner has qualified himself by carefully recorded industry and good conduct for passing the prescribed periods in the Intermediate Class, and any delay in this qualification will have the effect of postponing his admission thereto, and deferring to the same extent the remission of a portion of his sentence.

3. It must be quite evident to the Convicts that their future position depends upon their own exertions, by which only they can make the progress in Marks and Classification that will give them a claim to these advantages.

4. It will be necessary, therefore, that each Convict should make himself thoroughly acquainted with the Rules respecting Marks and Classification as quickly as possible, for which every facility will be afforded him.

5. There may be exceptional cases and crimes of such a heinous description as to preclude offenders from being treated in the ordinary manner; these will be dealt with specially by the Government, as will also all cases of Prisoners sentenced to Penal Servitude for life, to whom no expectation of release from Prison can be held out. Each such case will have to be considered entirely on its own merits.

General Prisons Board, Dublin Castle,
17th January, 1887.

MEMO.

The Governor of——Prison.

The General Prisons Board request that you will be good enough to observe the following instructions when filling in the "Return showing the Employment of the Prisoners and the Value of their Earnings during the year ended 31st March, 1887," and to bear in mind that it will be necessary to take account, not only of the labour expended on articles manufactured or work done, for which payment is received from the public, but also of that which is expended in work done for the Prison or other Government Departments, in which the value of the labour is not recovered.

"*In Manufactures, Buildings, &c.*"—Under this heading should be given the fair value of all labour performed during the year, either for private customers or for the public service, except work specified under the next heading, viz., "Employments in the Ordinary Service of the Prison, Cooking, Cleaning, &c."

1. For prisoners employed solely in the production of articles for sale to private customers, the actual profit realized, as shown by the Cash Ledger, should be given, due abatement being made for the loss on tools, for incidental charges, &c.

2. For prisoners employed in industries in connexion with which sales are made to private customers as well as to Prisons and Government Departments, the amount to be entered should be arrived at by adding to the actual profit of the Cash Ledger a proportionate sum for Government work, calculated at per prisoner *per annum* upon the rate to which the private work tells out, on the basis of the Cash Ledger results.

3. For industries confined solely to work done for Prisons or

Government Departments, the amount to be entered should be based on the following rates per prisoner *per diem*.

—	Rate per Day.	—	Rate per Day.
Grinding Wheat,	According to quantity calculated at local price.	Moulders for Public Departments.	s. d. 2 6
	s. d.	Printers and Bookbinders for Public Departments.	2 6
Making Mats and Matting for Public Departments.	0 9½	Sack and Ship-tend-off makers and Twine Spinners for Public Departments.	1 8
Basket, Brush, and Mop-making for Public Departments.	1 8	Shoemakers for Public Departments.	1 9
Coopers, Joiners, Smiths, and Turners for Public Departments.	2 6	Tailors for Public Departments.	1 9
Cotton, Woollen, and other Weavers for Public Departments.	1 5	Washing for Public Departments.	1 6
Knitters and Needlewomen for Public Departments.	1 0	Woodcutters for Public Departments.	0 6
		Paper-sorting by weight for Public Departments, per ton.	15 0

"*In Buildings, &c.*"—The rates at which the value of labour under this head will be estimated are as follows:—

—	For a Day of Ten Working Hours.	—	For a Day of Ten Working Hours.
	s. d.		s. d.
Bricklayers or Masons,	2 6	Painters and Glaziers,	2 2
Carpenters or Joiners,	2 6	Plumbers and Gasfitters,	2 6
Labourers,	1 8	Smiths and Fitters,	2 6
Plasterers,	2 6	Slaters,	2 6

In the event of the hours of work being less than 10 *per diem*, the average number of hours worked *per diem* at each trade should be noted in pencil on the margin of the "Annual Return of the Employment and Earnings of Prisoners," and the amount carried out should have reference to the exact number of hours worked—e.g., if only five hours have been worked the rates would be only half those given in the table above.

Where special circumstances seem to the Governor to warrant any variation in the above rates, they should be altered accordingly, and an explanation given.

"*Employments in the Ordinary Service of the Prison, Cooking, Cleaning, &c.*"—The following kinds of work will be considered as "Employments in the Service of the Prison," and pending the issue of a comprehensive list of prices to be charged for labour in Local

Prisons, the value of the various kinds of work will be calculated at the rates here specified:—

—	Rate per Day.	—	Rate per Day.
Pumping water for the Service of the Prison only.	According to quantity calculated at the local price.	Clearing and Jetting-work in and about the Prison and Prison Yards and Buildings (exclusive of Building-work of any kind.)	s. d. 1 3
	s. d.	Nursing and attending Sick Prisoners.	1 4
		Washing Prisoners' Clothing.	1 3
Baking for the Prisoners.	1 9	Repairing all kinds of Prison Clothing, Shoes, Utensils, Books, &c.	1 3
Cooking for the Prisoners.	1 11	Stoking Prison Furnaces.	1 6

GEORGE SPROULE, Superintendent of Stores.

General Prisons Board, Dublin Castle,

18th January, 1887.

Circular No. 335.—549/87.

SIR,—I am directed by the General Prisons Board to forward to you, for your information and guidance, a copy of the instructions issued by the Inspector-General of Royal Irish Constabulary to the Members of that Force as to "Warrants of Committal against the same person."

I am, &c.,

RICHARD CLEGG, Chief Clerk.

To the Governors of Local Prisons,
Chief Warders of Minor Prisons,
and the Keepers of Bridewells.

Circular.

Royal Irish Constabulary Office, Dublin Castle,

10th January, 1887.

WARRANTS OF COMMITTAL AGAINST THE SAME PERSON.

I. The Orders on the above subject in Section 1711 of the Code and in Circulars of 14th September, 1883, and 8th November, 1883, are cancelled, and the following instructions are substituted.

II. In all cases where a Warrant is about to be issued against a person known to be already in custody, or against whom it is known that another Warrant or Warrants have been issued, the Constabulary should obtain the Magistrate's decision as to the manner in which the penalty is to be enforced, *i.e.*, whether the sentences should run consecutively, or concurrently, and have it stated upon the face of the Warrant.

III. All Warrants against the same person in regard to which it is stated that the sentences are to run consecutively or concurrently, should be handed over by the Constabulary to the Jail Official to whose custody the prisoner is committed.

IV. In any case where the course pointed out in Paragraph II, cannot be followed and the manner in which the penalties are to be enforced has not been determined by the Magistrates, the Warrant or Warrants should remain in the hands of the Police, while the prisoner is undergoing his sentence under another Warrant.

A. REED, Inspector-General.

33496—62736 M.

General Prisons Board, Dublin Castle,
21st February, 1867.

MEMO.

I am directed by the General Prisons Board to send you the attached copy of Schedule of Dietary for Local Prisons, and to draw your attention to the alteration in dinners for No. 2 Class prisoners on Mondays, Tuesdays, and Saturdays, which is to be immediately acted on.

Copies for posting in cells and leaflets for the books will be sent you as soon as printed. Please say how many of each you will require.

RICHARD CLEGG, Chief Clerk.

Governors, H. M. Local Prisons,

a convicted prisoner is to be retained in custody, whether under one, or more than

General Prisons Board, Dublin Castle,
25th February, 1887.

MEMO.

As much unnecessary expense and trouble in this Department is caused by the want of system in making applications for the supply of sanctioned Books of Record and of Forms for use in the several Prisons, I am directed to request that you will take such steps as may be required to ensure that demands in the future shall be made at the commencement of each quarter.

RICHARD CLEGG, Chief Clerk.

To the Governors of H. M. Prisons.

2202.

Circular No. 336.

General Prisons Board, Dublin Castle,
9th March, 1887.

ORDINARY DIET.—LABOUR CLASS.

To the Governors of Male Convict Prisons.

I am directed by the General Prisons Board to forward you the accompanying copy of a Revised Dietary for the above-named class of Convicts, which is to be forthwith substituted for that now in use, and I have to request that you will at once state how many copies of the Dietary you will require.

You will please call the attention of the Medical Officer to the alteration of Diet for this class, and request him to report his opinion thereon, on or before the 31st of July next.

RICHARD CLEGG, Chief Clerk.

*Mountjoy
Convict
Prison.
—
Governor's
Report.*

CONVICT PRISONS.

1.—MOUNTJOY CONVICT PRISON.

GOVERNOR'S REPORT.

Mountjoy Prison,
May, 1887.

SIR,—I have the honour to submit this, my report for the year ended 31st March, 1887, with the usual statistical returns attached.

The conduct of the subordinate officers has, in general, been very good, and the majority of them have discharged their duties zealously and efficiently.

The chief and principal warders have performed their duties with firmness and discretion.

The conduct, in general, of the prisoners was good, cases of insubordination were few, and not participated in or countenanced by the general body of the convicts, who showed a very good spirit and worked well and willingly during the year.

There was no attempt to escape.

The bakery was completed and baking for the convicts undertaken in January; it has since been extended to supplying bread to other Dublin prisons. The saving that will be thus effected in this important article of diet will be considerable.

The new hospital was completed and made ready for occupation within the year.

New workshops were fitted up in the basement of a wing of No. 1 Prison for the "select class," and various other necessary alterations and repairs to the prison buildings were effected during the year, at which ample employment for the convicts was found.

The usual trades and manufactures have been continued during the year, and a new system of keeping manufacturing books and accounts introduced.

I regret having to report the death during the year of two old prison officers—one, the Reverend Mr. Cody, was for very many years Roman Catholic Chaplain of No. 1 Prison, and his death was much regretted both by convicts and officers; the other, Chief Warder Leary, was a prison officer of thirty-one years service, and was very generally regretted.

The Chaplains have been most attentive to the spiritual wants of the convicts, and I thankfully acknowledge their support in the maintenance of order.

School instruction has been imparted to the least educated of the convicts as usual, and an increased attendance provided for during the year; an additional supply of works of general literature was provided for the use of the convicts who are capable of reading and deriving information from them.

The Deputy Governor has given me very valuable assistance in the maintenance of discipline and in the management of the prison generally. I certify that the rules laid down for the government of the prison have been adhered to, except in such instances as were brought to the notice of the General Prisons Board.

Mountjoy
Convict
Prison.
—
Governor's
Report.

I have the honour to be, sir,

Your most obedient servant,

GEO. SHEEHAN, Governor.

The Chairman, General Prisons Board.

A Return showing the average number of Convicts in custody and those employed in other Prisons from Mountjoy Prison during the year ended 31st March, 1887.

	Mountjoy Prison.	Cork Male Prison.	Galway Prison.	Mary- borough Prison.	Richmond Prison.	Kilmainham Prison.
Average number.	412-569	4-025	16-482	17-287	1-487	138
Total average number of Male Convicts } 413-761 during the year.						

Return showing the Number of Convicts committed and disposed of, from 1st April, 1886, to 31st March, 1887.

MOUNTJOY
CONVICT
PRISON.

Medical
Officer's
Report.

MEDICAL OFFICER'S REPORT.

Mountjoy Prison,
25th April, 1887.

SIR,—I have the honour to submit the annual report on the state of health of the officers and prisoners, and on the general sanitary condition of this prison, with the usual medical statistics for the year ended 31st March last.

There were sixty-eight warders admitted into hospital during the year, chiefly for chest, febrile, and rheumatic affections, and one case of scarlatina—an unmarried warder residing in the prison—he was removed immediately to the Hardwicke Hospital. One warder was discharged the service on medical grounds. There was no death.

During the year there were 121 prisoners treated in hospital—principally for diseases of the digestive and respiratory systems, febrile and rheumatic affections. There were three deaths, and two convicts were released from prison on medical grounds. There were five prisoners transferred to the Criminal Lunatic Asylum, Dundrum, and seventeen to the Invalid Prison, Maryboro'.

Scarlatina was rather prevalent among the children of the warders. In order, as far as possible, to prevent this disease being introduced into the prison, it became necessary for me to recommend that warders, in whose families it had appeared, should remain in, or out of, the prison. This was a most beneficial precaution, as no case of scarlatina occurred within the prison, except that of the warder above referred to.

The labour dietary for some time in use in this prison was found to be excessive; a new scale of dietary recommended by me, with some slight modification suggested by Dr. McCabe has been substituted. This dietary is more varied, but still very simple, less in quantity, but yet sufficient to maintain a good standard of health, and it has given great satisfaction to the prisoners. The bread is now of excellent quality, being baked in the prison, there is no adulteration in its manufacture.

The new hospital, having ample accommodation, built on the most approved principles, well heated, well lighted, and well ventilated, with properly constructed baths and water-closets, is now ready for occupation, and I venture to say that for completeness in all details and requirements, no hospital of any public institution in the United Kingdom can compare with it.

It is intended to build suitable quarters within the prison for the unmarried warders. This will be a great improvement, the present quarters being defective as pointed out in my annual report for 1884-85.

The ventilation of the cells in No. 2 Prison has been improved during the year, and there is nothing calling for any special remarks as regards the general sanitary state of the prison which is now most satisfactory.

I have the honour to be, sir,

Your most obedient servant,

P. O'KEEFE, M.D., Medical Officer.

The Chairman, General Prisons Board,
Dublin Castle.

ROMAN CATHOLIC CHAPLAINS' REPORT.

Mountjoy Prison,

May, 1887,

Roman
Catholic
Chaplain's
Report.

SIR,—We beg to submit our report for the year ending March, 1887.

It affords us great pleasure to be able to state that the religious and moral conduct of the Roman Catholic prisoners generally, was very satisfactory. The vast majority of them were attentive to their religious duties, and a large number of them received the Holy Sacraments regularly.

We observed a marked improvement in the order and discipline of the prison. The offences requiring punishment were few and not of a serious nature; and the use of chains was discontinued altogether.

We noticed, with pleasure, a growing spirit of labour and industry among the convicts, which, we trust, will continue to be carefully fostered; for, without labour and industry there can be but little hope indeed of the permanent reformation of those among them who have passed their lives in idleness.

Mountjoy
Convict
Prison,

Roman
Catholic
Chaplain's
Report.

It is to be regretted that out-door employment is rather limited in extent and variety, though the want of it is not felt so much now as it will be a few years hence when the improvements in process of execution will have been completed.

We cannot conclude without a word of praise as to the great care taken of the sick in hospital, and we take the liberty of stating generally that the establishment was conducted very successfully during the past year.

We thank the officers sincerely for their courtesy and attention to us, on all occasions, in the discharge of our duties.

We have the honour to be, sir,

Your obedient servants,

MICHAEL WALSH, R.C.C.

TERENCE O'DONNELL, A.R.C.C.

Protestant
Episco-
palian
Chaplain's
Report.

PROTESTANT EPISCOPALIAN CHAPLAIN'S REPORT.

Mountjoy Prison,

April, 1887.

SIR,—The duties of the Chaplaincy of the Irish Church have been discharged by me, carefully, during the year ended March 31st, 1887.

The prisoners have been most attentive to the services of the church and to the information and instruction therewith given, and engaged in these religious exercises with earnestness. They have, as a rule, been well conducted and industrious. The punishments have been few, indeed, and mild. The cells are lofty, light, and airy, and can be heated if necessary; but the men do their utmost to keep out of them.

I have to acknowledge that on some occasions I have received useful hints from the Governor of which I have availed myself.

All the officers of the prison are anxious to give me such assistance as I may require.

I remain, sir, your obedient servant,

DAVID STUART, Chaplain, I.C.

The Chairman, General Prisons Board,

Dublin Castle.

Presby-
terian
Chaplain's
Report.

PRESBYTERIAN CHAPLAIN'S REPORT.

Mountjoy Government Prison,

May 3rd, 1887.

SIR,—I regret to have to report a large increase to the convicts under my ministration. This, however, is largely owing to the transfer of prisoners from Spike Island to Mountjoy. There are now thirty Presbyterian convicts in the prison, more than triple the number when I was appointed to the Chaplaincy.

Aided occasionally by the Rev. Dr. Tait, I have been enabled to discharge all the duties attached to the office I hold. During the official year I have conducted 156 services—fifty-two as regular sabbath worship, and 104 as religious instruction exercises. I am always gratified at the attention given to my discourses. Indeed no congregation could behave

with more seriousness than mine in this institution. The benefits of my efforts for the men committed to my ministerial oversight can only be ascertained by their future life.

It is generally supposed that the criminal class are almost all ignorant and uneducated. This is contradictory to my experience. I am sorry to say that amongst the men I minister to are some of the brightest intellects and intellectual attainments, and I may add amiable dispositions. Great must have been the temptations that conducted such men to penal servitude.

From all the officials I have received all required help. The Governor and his Deputy, and all under them, give me every facility for the effective discharge of my responsible duties.

I am, sir, your obedient servant,

S. G. MORISON, Presbyterian Chaplain.

The Chairman, General Prisons Board,
Dublin Castle.

2.—GRANGEGORMAN FEMALE CONVICT PRISON.

SUPERINTENDENT'S REPORT.

H.M. Prison, Grangegorman,

30th April, 1887.

SIR,—I have the honour to submit my annual report for the year ending 31st March, 1887.

On that date there were sixty-one female convicts in custody, thirty-seven were discharged through the year, while only sixteen were received into the prison. Golden Bridge Refuge for Roman Catholic convicts was again opened, but as the accommodation was very limited only seven have had the privilege of being sent there.

One convict died during the year, and one was transferred to the Criminal Lunatic Asylum.

The convicts have been employed principally at laundry work, knitting, and sewing. The teaching has been conducted as hitherto.

The Sisters of Charity and a Protestant lady visitor continue to give instructions to the prisoners of their respective denominations, and their efforts seem to be greatly appreciated by them.

Owing to the help rendered by the Prisoners' Aid Societies several of the convicts who were discharged have been enabled to make a fresh start in a new country, and from several of them I have received most gratifying accounts.

I believe there is a marked improvement in the conduct of the prisoners, and they are much more amenable to prison discipline than formerly.

The staff of the prison display much zeal and energy in the discharge of the very onerous duties which this prison requires, and I consider that with a very few exceptions the conduct of the officers has been very good.

GRANGEGORMAN
FEMALE
CONVICT
PRISON.

Superintendent's
Report.

GRAND-
JURYMAN
CONVICT
PRISON.

Superintendent's
Report.

The usual statistical returns are attached.

I certify that the rules laid down for the government of the prison have been carried out, except in such cases as I have reported to the General Prisons Board.

I have the honour to be, sir,

Your obedient servant,

ELIZA ROTHE, Superintendent.

The Chairman, General Prisons Board,
The Castle.

Medical
Officer's
Report.

MEDICAL OFFICER'S REPORT.

Grangegorman Female Convict Prison,
April 11th, 1887.

SIR,—I have the honour to submit the annual report of the sanitary condition of this prison for the past year.

The general health of both staff and the prisoners has been good. Only six of the matrons, under my care, were treated in hospital for attacks more or less severe. One was obliged to retire from the service in consequence of her state of health.

Only one death occurred among the prisoners, from hepatic disease, the result of alcoholism. The prisoner transferred to the Central Lunatic Asylum had been there before on a former conviction. The particulars of these cases are fully detailed in the annexed tables.

The prison dietary appears to be both good and wholesome, and the general sanitary state of the prison satisfactory.

The daily average of sick in hospital may appear large for the number of prisoners, but this can be accounted for by the number of permanent invalids unfit for cellular confinement.

I continue to receive every assistance from the Superintendent and from all the officers.

I have the honour to be, sir,

Your obedient servant,

JAMES WILLIAM YOUNG, M.D.,
Medical Officer.The Chairman, General Prisons Board,
Dublin Castle.

ROMAN CATHOLIC CHAPLAIN'S REPORT.

Grangegorman Prison,

June 17th, 1887.

Roman
Catholic
Chaplain's
Report.

SIR,—I beg to forward my report for the year ended the 31st March, 1887.

I attended the prison three or four times every week, and visited the sick in hospital. I celebrated mass on Sundays and Holidays, and heard confessions on Fridays and Saturdays.

I am happy to be able to state that I have noticed a vast improvement in the moral conduct of the prisoners during the past year, and I have great hopes that the prisoners committed to penal servitude for the first time will give satisfaction to the authorities on their discharge. As for the prisoners who have been repeatedly committed, I am decidedly of opinion that they have no fear of imprisonment; on the contrary, many of them look on the prison as a home. This fact alone ought to show that in this prison there is no such thing as harsh treatment of prisoners.

I have the honour to be, sir,

Your obedient servant,

J. ANDERSON, Roman Catholic Chaplain.

PROTESTANT EPISCOPALIAN CHAPLAIN'S REPORT.

H.M. Prison, Grangegorman,

May, 1887.

Protestant
Episco-
palian
Chaplain's
Report.

SIR,—In forwarding my annual report, I beg gratefully to acknowledge the ready attention accorded by your Board to the recommendation submitted in my last report with regard to certain cases of a life sentence for the crime of infanticide. One of those referred to—an invalid—has been restored to her friends; another has been emigrated, with good hopes of her future welfare; a third is to be discharged in December next, and will also be emigrated.

GRANGEGORMAN
CONVICT
PRISON.

*Protestant
Episcopal-
ian
Chaplain's
Report.*

Such clemency on the part of the Government has, I am satisfied, the best possible effect in promoting patient and cheerful efforts at self-reformation among the prisoners, who feel that even a severe sentence of lengthened imprisonment does not place their case beyond the hope of being mercifully dealt with at the proper time.

There were seven convicts under my charge on March the 31st, and these are attentive to the regular religious ministrations.

In my opinion the health of the prison is good, the dietary wholesome and sufficient, and the discipline firmly and humanely maintained.

I have the honour to remain,

HENRY HOGAN, B.D.,

Church of Ireland Chaplain.

To the Chairman of the General Prisons Board.

*Presby-
terian
Chaplain's
Report.*

PRESBYTERIAN CHAPLAIN'S REPORT.

Grangegorman Government Prison,

April 29th, 1887.

Sir,—I have very little to report of my department in this prison. During part of the year I had eight prisoners under my ministerial care; all of these have put in the time of their sentence, with one exception. And it is a cause of happiness to me to be able to report that there is but one convict under my instructions at present, and not one local prisoner.

I have discharged all my duties during the year, having paid 104 weekly visits, and conducted fifty-two Sabbath exercises. It is not an easy matter to ascertain what benefits are derived from ministerial ministrations; but it is to be hoped that from private conversations and Sabbath efforts some good may be effected. Indeed the class of females that have been brought under my supervision was not likely to attend any religious instructions or any public worship. Compulsory attendance, therefore, has the advantage of affording an opportunity of learning something of the sacred verities of Christianity.

I have always received from all the officials of the prison all necessary facilities for the performance of my work.

I am, sir,

Your obedient servant,

S. G. MORRISON, Presbyterian Chaplain.

The Chairman of the General Prisons Board,
Dublin Castle.

4.—DOWNPATRICK CONVICT PRISON.

GOVERNOR'S REPORT.

H. M. Prison, Downpatrick,

29th April, 1887.

DOWN-
PATRICK
CONVICT
PRISON,
Governor's
Report.

SIR,—I have the honour to lay before you my report, together with the usual statistical returns of this prison for the year ended the 31st of March, 1887.

The general conduct of the subordinate officers, with one exception, has been satisfactory, and they have shown a commendable interest in the efficient discharge of their duties. Three vacancies occurred on the staff during the year, in consequence of the discharge of two Warders through ill health, and the resignation of the third, whose places have been filled up by the transfer of Warders from other prisons.

The general conduct of the prisoners has been good, and as a consequence punishments have not been of frequent occurrence. The employments have been the same as in the preceding two years, comprising shoemaking, tailoring, woodcutting, matmaking, stonebreaking, and garden work; the carpenter, smith, plumbing, and gasfitting work, &c., in connexion with the general repairs and requirements of the prison have been executed by prison labour.

The Medical Officer and Chaplain, with their usual care and solicitude, have been punctual in their attendance.

I hereby certify that to the best of my belief the rules laid down for the government of the prison have been complied with in every instance, except in such cases as have been reported or brought under the notice of the Board.

I have the honour to be, sir,

Your obedient servant,

M. MURPHY, Governor.

The Chairman, General Prisons Board,
Dublin Castle.

Medical
Officer's
Report.

MEDICAL OFFICER'S REPORT

H. M. Prison, Downpatrick,
29th April, 1887.

SIR,—I have to report that there has been no case of epidemic disease in this prison during the year.

The sanitary state of the institution is satisfactory.

During the year two prisoners were transferred to the Invalid Convict Prison. One a case of chronic rheumatism of many years standing; the other a case of disease of the lungs with profuse hæmorrhage.

Two were sent to the Dundrum Lunatic Asylum. One was regarded as of doubtful sanity on his reception here, and was under close observation till the time of his removal; the other had been previously twice in the above asylum.

Two Warders have been discharged as, owing to ill health, they were, unfit for the discharge of their duties. One had disease of the lungs, and the other disease of the liver.

I have also to report the occurrence of one accident to a convict which resulted in the loss of an eye.

During the past winter there has been more than usual of the ordinary ailments.

I have the honour to be, sir,

Your obedient servant,

JOHN K. MACONCHY, M.B., F.R.C.S.I.

To the Chairman, Prisons Board,
Ireland.

DOWN-
PATRICK
CONVICT
PRISON.

ROMAN CATHOLIC CHAPLAIN'S REPORT.

Downpatrick Convict Prison,

April 29th, 1887.

Roman
Catholic
Chaplain's
Report.

SIR,—I beg to submit my report for the year ending March 31, 1887.

The conduct of the prisoners confined in this gaol during that period was very satisfactory indeed.

Many of them complained that the religious services were not as numerous as at Mountjoy, and they made representations to the Prisons Board to this effect. Considering their complaints to be reasonable, I myself stated on what conditions the chaplain could give the increased services, but your Board did not see fit to comply with those conditions, and so to remove the grievances under which the prisoners believe they labour.

I have the honour to be, sir,

Your obedient servant,

J. R. HEADLEY, R. C. Chaplain.

The Chairman, General Prisons Board, Dublin.

5.—MARYBOROUGH PRISON.

MALE CONVICT DEPOT FOR INVALIDS AND THE
INTERMEDIATE CLASS.MARY-
BOROUGH
MALE
CONVICT
DEPOT.

GOVERNOR'S REPORT.

Her Majesty's Prison, Maryborough,

26th April, 1887.

Governor's
Report.

SIR,—I have the honour to submit my annual report, accompanied by the usual statistical returns, for the year ended 31st March, 1887.

The conduct of the subordinate officers has been generally satisfactory, and their duties have been on the whole efficiently performed. Several changes have taken place. One clerk, one principal, and three ordinary warders have been attached to the staff. Two deaths have occurred during the past year.

On the final closing of Lusk Prison on the 31st December, the intermediate class prisoners were transferred to this prison. Twenty-nine

M 2

MARY-
BOROUGH
MALE
CONVICT
DEPOT.
—
*Governor's
Report.*

prisoners of this class have been received. They have been principally employed in building houses and cultivating the land outside the prison. Their conduct and industry have been very good. Notwithstanding the seeming loss of privileges, they are now quite alive to the advantage of receiving the whole of their gratuity on release, in place of spending a portion of it while in confinement.

Many of them appear serious in their intention to abandon their former habits.

Mr. Doody has given me great assistance in making the necessary arrangements for those who are desirous to emigrate. This prison is in many ways very well adapted for prisoners of this class.

There were in confinement in the beginning of the year seventy-two convicts, twenty-five discharged on licence, two of whom were on medical grounds, four on completion of sentence, thirty-two transferred to Mountjoy Prison, and three deaths, received during the year sixty-five, making a total on the 31st March, 1887, of seventy-one in custody. The conduct of the prisoners has been satisfactory.

There have been no escapes, suicides, nor attempts at suicide. Three deaths have occurred in the hospital during the year.

Farther extensive alterations have been made, consisting of enlarging five cells and constructing eight additional cells, flooring, plastering, and fitting the same with gas chambers. Two galleries, fifty-five feet each in length, have been erected in place of the stone ones. Fifty-five feet of the hall of this block have been flagged. Three bathrooms, with hot and cold water laid on, and one water-closet have been added, and one skylight has been inserted in the roof. The entire heating arrangements in the A and B Prison have been reconstructed in place of hot air shafts, which were most defective. These blocks, consisting of forty-eight cells, are heated with hot water pipes.

Outside the prison four cottages have been built, roofed, slated, and cemented by prison labour, and will shortly be ready for occupation.

Tailoring, shoemaking, repairing clothes, chopping wood, gardening, pumping water for culinary purposes continue to occupy the invalids capable of work. Nearly two acres of land outside the prison have been tilled, and vegetables sown by the intermediate class.

The earnings show a considerable increase upon last and previous years.

The respective chaplains have been most punctual in their attendance both on Sunday and week day duties. The medical officers have been particularly attentive in their treatment of the sick.

The rules laid down for the government of the prison were complied with in every respect to the best of my belief and knowledge, except in such cases as have been brought to the notice of the Board.

The Visiting Committee visited the prison on the 12th May, 9th June, 14th July, 8th September, 8th December, 12th January, 9th February, and on the 9th March.

I have the honour to be, sir,

Your obedient servant,

A. C. BULKELEY, Governor.

To the Chairman, General Prisons Board,
Dublin Castle,

Medical
Officers'
Report.

MEDICAL OFFICERS' REPORT.

Maryborough Convict Prison,
April 4th, 1887.

SIR,—We have the honour to submit the annual report and medical statistics bearing on the state of health of the officers and prisoners, and on the sanitary condition of Maryborough Prison during the year ended 31st March, 1887.

There were treated in prison quarters and at their homes, for various ordinary ailments during the year, twenty-nine cases of warders, one of whom died of congestion of his left lung supervening on chronic disease of that organ, and one died of typhoid fever, this latter case was transferred to the fever ward of the Queen's County Infirmary, this action having been considered necessary for the purposes of isolation and segregation from the other warders, and to guard against the spread

of the disease in the prison as well as having him placed in a favourable position for the treatment and conduct of his case. There were fifty-four convicts treated as hospital patients during the year in the divisions of the hospital prisons for the following diseases, viz.:—Those of the circulatory, lymphatic, and digestive systems and respiratory organs; paraplegia, or paralysis of lower extremities, chorea, rheumatism, ulcer, senectus or old age, spinal curvature, observation, simple continued fever and typhoid fever, of which latter a slight outbreak occurred in the month of August. An officer already alluded to, and who at that time filled the dual position of storekeeper and schoolmaster, was first attacked and subsequently two convicts, one of whom was an invalid subject to epilepsy, and one an able-bodied man. While we very much regret that the disease proved fatal in the two former cases, yet we have reason to be grateful that it did not extend to a greater number of the prison population. We have looked about with eager scrutiny to ascertain the cause for the appearance of this malady, but we have failed to discover anything to base an opinion that it arose from any unsanitary condition of the prison. We were therefore led to suspect that it had its origin from without, and we were somewhat successful in tracing it to a house in the town which the deceased officer was accustomed to frequent then possibly in his capacity as schoolmaster he may have communicated the infection to the prisoners who attended his school. This is the only solution of the question that suggests itself to our minds.

DEPT.

Medical
Officers'
Report.

Referring to the mortality table, where there are three deaths of convicts recorded, one from pulmonary consumption, one from typhoid fever and congestion of the lungs supervening on heart and liver diseases, we may feel justified in considering these a small per-centage on the prison population, which is chiefly made up of men labouring under chronic ailments, and many of whom are very advanced in years. On 31st of December last this prison was adopted as a place of confinement for the prisoners formerly detained at Lusk Intermediate Prison, and we are in a position to state that the prison or building now occupied by that class of prisoners, from a sanitary point of view, is very suitable to that arrangement.

There were two convicts discharged from prison on medical grounds, men who had already spent a considerable time in penal servitude, and whose cases did not seem to be making any favourable progress towards recovery, and who appeared to us to be pining for liberty; after due consultation in each case, we arrived at the conclusion that it was desirable to represent their condition to His Excellency the Lord Lieutenant, who in the exercise of his clemency set them free.

We have the honour to be, sir,

Your most obedient servants,

DAVID JACOB, M.D., Visiting Physician.

MAURICE O'CONNELL, Surgeon, &c.,

Resident Medical Officer.

P.S.—The Governor has afforded me every facility and assistance in the carrying out of the medical duties connected with this prison.

MAURICE O'CONNELL, Resident Medical Officer.

ROMAN CATHOLIC CHAPLAIN'S REPORT.

Maryborough, April 29th, 1887.

DEAR SIR,—Since my last yearly report of the Maryborough Prison, I think I notice a decided improvement in the conduct and discipline of the prisoners. The officials continue civil and obliging.

The acquisition of some land in connexion with the prison would be very desirable. It would afford some wholesome employment for the inmates, and give a plot of ground for a cemetery that is so badly wanted.

I remain yours faithfully,

A. PHILLAN.

To the Chairman of Prisons Board.

PROTESTANT EPISCOPALIAN CHAPLAIN'S REPORT.

The Rectory, Maryborough,
29th April, 1887.

Protestant
Episco-
palian
Chaplain's
Report.

SIR,—The prisoners who attended the services of the Church of Ireland during the past year were on all occasions orderly and attentive to the services, and seemed pleased on being visited by their Chaplain. Experience has made me cautious in judging that prisoners have undergone a decided change, yet, finding that many of them have been led into crime in very great ignorance, I have no doubt but that in a considerable number of these cases the instruction received in prison must have a beneficial effect. The most hopeful cases are, I believe, to be found among this class. On the other hand, some of the men seem to become habituated, and, to some extent, reconciled to prison life; possibly in these cases shorter terms of imprisonment and the exercise of severer discipline would after their release have a more deterrent effect. I will only add, I received from the intern officers, without exception, all the assistance in their power in the discharge of my duties as Chaplain.

I have the honour to be, sir,

Your obedient servant,

EDWARD L. EVES,

Church of Ireland Chaplain.

The Chairman,

The General Prisons Board.
